SUPPLEMENTARY INFORMATION:

Title: FERC-915, Public Utility Market-Based Rate Authorization Holders – Records Retention Requirements

OMB Control No.: 1902-0250

Type of Request: Three-year extension of the FERC-915 information collection requirements with no changes to the reporting requirements.

Abstract: The Commission has the regulatory responsibility under section 205 of the Federal Power Act (FPA) to ensure that wholesale sales of electricity are just and reasonable and provided in a non-discriminatory manner. The Commission uses the information maintained by the respondents under FERC-915 to monitor the entities' sales, ensure that the prices are just and reasonable, maintain the integrity of the wholesale jurisdictional sales markets, and ensure that the entities comply with the requirements of the FPA and any orders authorizing market-based rate sales. FERC-915 information collection requirements are contained in 18 Code of Federal Regulations part 35.41(d).

Type of Respondents: Public Utility Market-Based Rate Authorization Holders

Estimate of Annual Burden¹: The Commission estimates the total Public Reporting Burden for this information collection as:

FERC-915: Public Utility Market-Based Rate Authorization Holders—Record Retention Requirements

¹ The Commission defines burden as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, reference 5 Code of Federal Regulations 1320.3.

	Number of Respondents (1)	Annual Number of Responses per Respondent (2)	Total Number of Responses (1)*(2)=(3)	Average Burden & Cost Per Response ² (4)	Total Annual Burden Hours & Total Annual Cost (3)*(4)=(5)	Cost per Respondent (\$) (5)÷(1)
Electric Utilities with Market-Based Rate Authority	1,955	1	1,955	1 \$30.66	1,955 \$59,940	\$30.66

The total estimated annual cost burden to respondents is: \$416,293

- Labor costs: 1,955 hours * \$30.66/hour = \$59,940
- Record retention/storage cost for paper records (using an estimate of 48,891 cubic feet): \$315,792³
- Electronic record retention/storage cost: \$40,561
 - staff-time cost: 1,955 hours ÷ 2⁴ = 977.50 hours * \$28/hour⁵ = \$27,370;
 - electronic record storage cost: 865 * \$15.25/year⁶ = \$13,191.

Comments: Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including

² The estimates for cost per response are derived using the following formula: Average Burden Hours per Response * \$30.66 per Hour = Average Cost per Response. The hourly cost figure comes from the Bureau of Labor Statistics website (http://www.bls.gov/oes/current/naics2_22.htm). The occupation title is “file clerk” and the occupation code is 43-4071. 69.4 percent of this cost is hourly wages. The rest of the cost is benefits (<http://www.bls.gov/news.release/ecec.nr0.htm>).

³ The Commission bases this figure on industry archival storage costs.

⁴ Only 50% of records are retained in electronic formats.

⁵ The Commission bases the \$28/hour figure on a FERC staff study that included estimating public utility recordkeeping costs.

⁶ The Commission bases the estimated \$15.25/year for each entity on the estimated cost to service and to store 1 GB of data (based on the aggregated cost of an IBM advanced data protection server).

whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Dated: August 24, 2015.

Kimberly D. Bose,
Secretary.
